Lesson 3: Documents and Meetings: Summarise, Ask, Check

Module 1 | 60 minutes | Summaries you can trust | Adults (18+) · ages 18–65

Name: _____ Class: _____ Date: _____

Practise what you learned today. Read each task carefully.

1. Key words

Match each word to what it means. Write the letter.

a. summary ___ A. A task from a meeting with a clear owner and deadline.
b. source ___ B. A marker or reference that shows exactly where an answer came from.
c. citation ___ C. The document or web page an answer comes from. In NotebookLM, the files you add.
d. action item ___ D. A short version of a long document that keeps the important points.

2. Prompt Lab: a summary you can check

Write a prompt to summarise the practice policy document for new staff. Say who it is for, the length or format, ask for section numbers, ask for the key dates and amounts, and tell the AI what to do if something is unclear. Write your prompt here, then try it in Claude or ChatGPT or NotebookLM or Gemini.

3. Prompt Lab: meeting notes to action items

Here are rough notes from a shop team meeting: “Diwali stock – Zoya to order by 20 Oct. Kabir check godown space. New price list to all shops before Diwali. Arjun fix billing printer Friday.” Write a prompt to turn them into action items with owners and deadlines, in a table, and to mark anything missing. Write your prompt here, then try it in Gemini or ChatGPT or Claude or Microsoft Copilot.

4. Is this action item ready to share?

Write each item in the right group: Ready: has a task, owner and deadline / Not ready: something is missing.

a. Zoya — order Diwali stock — by 20 Oct → _____
b. Check godown space → _____
c. Arjun — fix billing printer — Friday → _____
d. Someone to send the price list soon → _____
e. Meera — share PTM slots with parents — 5 Nov → _____
f. Discuss the new software sometime → _____

5. Spot the summary mistake

The policy says: “Claims older than 60 days will not be paid.” The AI summary says: “Claims older than 15 days are rejected.” What is the problem? Circle one.

a. A. No problem; it is close enough
b. B. The AI mixed up two rules: claims are due in 15 days, but are refused only after 60 days
c. C. The original document must be wrong
d. D. The AI is right because it is newer

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ I can write a summary prompt with a reader, a length and section numbers.
☐ I can ask questions of a document in two tools.
☐ I can turn meeting notes into action items with owners and deadlines.
☐ I can check an AI summary against the original and correct it.
