Lesson 5: AI for Sales and Customer Messages

Module 2 | 60 minutes | Honest sales messages | Adults (18+) · ages 18–65

Name: _____ Class: _____ Date: _____

Practise what you learned today. Read each task carefully.

1. Key words

Match each word to what it means. Write the letter.

a. lead ___ A. Where a team keeps customer notes and next steps; even a shared sheet can be a simple CRM.
b. follow-up sequence ___ B. A reason a customer gives for not buying yet, like price or timing.
c. objection ___ C. A planned set of messages, like day 3, day 7 and day 14, each with a new reason to reply.
d. CRM ___ D. A person or company that has shown interest and might buy.

2. Prompt Lab: a follow-up sequence

Choose your path and write a prompt for a 3-message follow-up sequence to a lead. Say who the customer is (with a placeholder), the real facts of what happened, the timing of each message, the length, a new helpful reason each time, an honesty rule, and how the last message should end. Write your prompt here, then try it in ChatGPT or Claude or Gemini or Microsoft Copilot.

3. Prompt Lab: rough notes to a CRM note

Write a prompt that turns rough call notes into a CRM note. Name the fields (need, budget, decision maker, objections, next step, follow-up date), say that personal details were removed, tell the AI not to add anything, and ask it to flag anything unclear. Write your prompt here, then try it in ChatGPT or Claude or Gemini or Microsoft Copilot.

4. Honest sales message, or rewrite it?

Write each item in the right group: Honest: OK to send / Not honest: rewrite it.

a. “Only 2 left in stock!” (you have 40) → _____
b. “Prices go up on 1 Dec, as the supplier has announced” → _____
c. “Rated 5 stars by 1,000+ customers” (you have 12 reviews) → _____
d. “Would Thursday or Friday suit you for a demo?” → _____
e. “This is my last follow-up; reply any time you need us” → _____
f. “Our competitor’s tables break within a month” (no proof) → _____
g. “Here are two photos of the actual table you will receive” → _____
h. Writing a Google review as a “happy customer” yourself → _____

5. Match each objection to a good way to answer it

Draw a line from each word to its match.

a. “It’s too expensive” ..... A. Share genuine proof: real reviews, a sample, a visit or a demo
b. “I’ll think about it” ..... B. Ask when would suit them and set a reminder
c. “Another shop is cheaper” ..... C. Compare true facts politely; never run down the competitor
d. “Not the right time” ..... D. Ask what is holding them back and agree a follow-up date
e. “I don’t know your company” ..... E. Ask what matters most, show real value, offer a real cheaper option if one exists

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ I can write a follow-up sequence with a new helpful reason in each message.

☐ I can get calm, honest replies to common objections and remove invented claims.

☐ I can turn rough call notes into a CRM note without adding anything.

☐ I can follow the honesty rules for sales messages, opt-in and bots.
