Lesson 6: AI for Teachers and Trainers

Module 2 | 60 minutes | Lesson packs, checked | Adults (18+) · ages 18–65

Name: _____ Class: _____ Date: _____

Practise what you learned today. Read each task carefully.

1. Key words

Match each word to what it means. Write the letter.

a. lesson plan ___ A. A table describing what work looks like at each level for each criterion.
b. differentiated ___ B. The correct answers, ideally with working, for checking learners' work.
c. answer key ___ C. The same topic at different levels, so every learner works at the right level.
d. rubric ___ D. The steps of a lesson with times: starter, main activity, practice, check.

2. Prompt Lab: a lesson plan

Choose your path and write a prompt for a lesson plan. Give the AI a role, your learners and their level, the topic, the time, one clear goal, the parts you want (starter, activity, practice, quick check), and what makes it fit your learners. Write your prompt here, then try it in ChatGPT or Claude or Gemini or Microsoft Copilot.

3. Prompt Lab: a three-level worksheet

Write a prompt for a worksheet at three levels on your topic. Ask for the three levels by name, the number of questions, an answer key with working, the right reading level for the age, and familiar local examples. Write your prompt here, then try it in ChatGPT or Claude or Gemini or Microsoft Copilot.

4. Teacher privacy: OK to paste into a personal AI account, or never?

Write each item in the right group: OK to paste / Never paste (use placeholders or a school-approved tool).

a. The chapter topic and the learning goal → _____
b. A list of students with their marks → _____
c. Your own lesson notes → _____
d. A student's essay with their name and roll number → _____
e. A photo of your class → _____
f. Rough feedback notes that say [Student] instead of a name → _____
g. A parent's complaint email with their phone number → _____
h. A public syllabus outline → _____

5. Match each check to the problem it catches

Draw a line from each word to its match.

a. Solve every answer yourself ..... A. Answers that did not come from your own material
b. Read it as your weakest reader ..... B. Examples that feel foreign or leave learners out
c. Compare with your syllabus ..... C. Topics your learners have not been taught yet
d. Check names, foods and places ..... D. Words that are too hard for the age
e. Use citations in NotebookLM ..... E. A wrong answer key, like 3/4 + 1/8 = 4/12

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ I can get a lesson plan from AI and adapt it to my learners.
☐ I can make a worksheet at three levels with an answer key, and check every answer.
☐ I can draft a rubric and feedback comments without sharing student details.
☐ I can check AI materials for accuracy, age-fit and syllabus fit.
