Lesson 7: AI for HR, Office and Small Business Owners

Module 2 | 60 minutes | Office kit + bias checks | Adults (18+) · ages 18–65

Name: Class: Date:

Practise what you learned today. Read each task carefully.

1. Key words

Match each word to what it means. Write the letter.

a. bias ___ A. The official record of a meeting: attendees, decisions and actions.
b. bias check ___ B. Simple, everyday language that anyone can understand.
c. plain words ___ C. Asking the AI (and then reading yourself) to find and remove unfair words.
d. minutes ___ D. Unfair preference for or against people, like an age limit or gender in a job post.

2. Prompt Lab: a fair job post

Write a prompt for a fair job post for a role you know. Say it is a job post, give the duties, the skills or experience needed, the timings or location, and ask the AI to keep it fair: no age, gender or marital-status requirements, and a bias check at the end. Set a length. Write your prompt here, then try it in ChatGPT or Claude or Gemini or Microsoft Copilot.

3. Prompt Lab: notes to formal minutes

Write a prompt that turns rough meeting notes into formal minutes. Ask for attendees, decisions and action items, an owner and due date for each action, a clear format, no added content, a flag for anything unclear, and say that confidential names were replaced. Write your prompt here, then try it in ChatGPT or Claude or Gemini or Microsoft Copilot.

4. Job post line: fair, or biased?

Write each item in the right group: Fair: keep it / Biased: rewrite it.

a. “Age 22–30 only” → _____
b. “Must be comfortable managing appointments on a computer” → _____
c. “Female candidates preferred” → _____
d. “Freshers welcome; we will train you” → _____
e. “Native English speaker” → _____
f. “Clear spoken English or Hindi” → _____
g. “Unmarried candidates only” → _____
h. “Salary: ₹18,000–₹22,000 per month” → _____
i. “Good-looking, fair-skinned candidates” → _____

5. Match each task to the check that must happen before you use it

Draw a line from each word to its match.

a. Job post ..... A. A fluent speaker checks the meaning
b. Plain-words policy ..... B. Maths done in a sheet; tax rate confirmed with your accountant
c. Meeting minutes ..... C. Every decision, owner and date matches the notes
d. Quotation or invoice ..... D. No rule, number, date or exception changed from the original
e. Hindi version of a notice ..... E. Bias check: no age, gender, looks or background requirements

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ I can get a fair job post from AI and run a bias check on it.

☐ I can turn a policy into plain words and check that no rule changed.

☐ I can turn notes into minutes with owners and dates, and draft quotation wording with the maths in a sheet.

☐ I can build a role kit of five prompts, each with its own check.
