Lesson 8: Capstone: Your AI Work Playbook

Module 2 | 60 minutes | Your AI playbook | Adults (18+) · ages 18–65

Name: Class: Date:

Your mission
Map one work week, choose three tasks by score, build a tool and human checkpoint for each from this course, measure the time saved honestly, write your responsible-use rules, and present your playbook in five minutes.

Checklist

- [ ] Time map with a score for each task
- [ ] Three automations, each with tool, prompt or template, and checkpoint
- [ ] Time-saved log for each: before, after with checks, setup, payback
- [ ] At least one caught mistake or risky suggestion
- [ ] 5–8 responsible-use rules in your own words
- [ ] A five-minute presentation with what is next and what you will never hand to AI

Milestones

1. Week mapped and three tasks chosen by score — done on: _____
2. Three automations built and tested with practice data — done on: _____
3. Times logged and rules written — done on: _____
4. Presentation rehearsed and delivered — done on: _____

Plan it

Write your plan: the problem, who it is for, the AI tools you will use, and how you will check the AI's work.

How it will be marked

Criterion	1 · Beginning	2 · Developing	3 · Secure	4 · Excellent
Task choice and time map	No map; tasks chosen at random	Map made but no score, or risky tasks chosen	Clear map and score; three sensible low-to-medium-risk tasks	Clear map, well-reasoned choices, and high-risk tasks consciously kept with people
Automations and checkpoints	Vague ideas only	One or two automations working, checkpoints unclear	Three working automations from course tools, each with a checkpoint	Three reliable automations, well-placed checkpoints, and a routine a colleague could follow
Measurement and honesty	No times	Times without checks or setup	Honest before/after with checks, setup and payback; one caught mistake	Honest numbers over more than one run, caught mistakes explained, and fixes added
Responsible use and presentation	No rules; private data shown	Generic rules; presentation unclear or over time	Own plain-words rules covering privacy, checking, honesty, approvals and decisions; clear five-minute talk	Workplace-ready rules and a confident talk a manager could act on, including what never goes to AI

Want more?

- Add a fourth automation with Zapier or Power Automate (check the current free plan), with a checkpoint
- Write a one-page proposal for a one-month team pilot of your playbook
- Turn your rules into a plain-words poster for your office in English and Hindi (checked by a fluent speaker)

Two stars and a wish

Ask a friend to test your project.
