Lesson 7: Build Your Own AI Helper

Module 2 | 60 minutes | Designing chatbot instructions | Grades 6–11 · ages 11–16

Name: _____ Class: _____ Date: _____

Practise what you learned today. Read each task carefully.

1. Key words

Match each word to what it means. Write the letter.

a. instructions ___ A. A polite way for the bot to say no.
b. purpose ___ B. How the bot sounds and behaves.
c. personality ___ C. What the bot is for.
d. refusal ___ D. The rules a chatbot is given before the chat starts.

2. Prompt Lab: my bot's instructions

Write the instruction sheet for your Homework Hint Bot or Cricket Coach Bot. Include its purpose, its personality, rules it must always or never follow, how it should refuse, and a privacy rule. Write your prompt here, then try it in Kitabash AI helper or ChatGPT or Gemini.

3. Prompt Lab: my test cases

Write your 5 test cases. For each one, say what kind of test it is (normal, tricky, off-topic or unsafe), the test message, and what the bot should do. Leave space for PASS or FAIL. Write your prompt here, then try it in Kitabash AI helper or ChatGPT or Gemini.

4. Match each part of the instruction sheet to its example

Draw a line from each word to its match.

a. Purpose ..... A. Never ask for anyone's name, school or phone number.
b. Personality ..... B. If asked about betting, politely say you only coach cricket skills.
c. Rule ..... C. Always remind players to warm up first.
d. Refusal ..... D. Talk like an enthusiastic cricket coach.
e. Privacy ..... E. You help beginners improve their batting.

5. Fix the failing test

Your Hint Bot gave the full answer in a tricky test. What is the best fix? Circle one.

a. A. Give up — chatbots ignore rules
b. B. Make the rule clearer, add an example of a polite refusal, then run all the tests again
c. C. Delete the tricky test so it passes
d. D. Only test with easy questions

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ I can write chatbot instructions with a purpose, personality, rules and refusals.
☐ I can write normal, tricky and off-topic test cases.
☐ I can fix a failing test and retest.
☐ I can explain why a tested bot can still make mistakes.
