Lesson 8: Capstone: AI for Good Campaign

Module 2 | 60 minutes | Responsible AI for good | Grades 6–11 · ages 11–16

Name: _____ Class: _____ Date: _____

Plan your project and practise the key ideas.

1. Key words

Match each word to what it means. Write the letter.

a. campaign ___ A. The clear thing you ask your audience to do.
b. verify ___ B. A reliable place with known authors that checks its facts.
c. trusted source ___ C. Check that a fact is true using trusted sources.
d. call to action ___ D. A planned effort to get people to change something.

2. Prompt Lab: research prompt

Write a research prompt for your AI for Good campaign. Give the AI a role, name your local problem, ask for a simple explanation, ask for actions people can take, and ask which facts you should check or where they come from. Write your prompt here, then try it in Kitabash AI helper or ChatGPT or Perplexity or Gemini.

3. Prompt Lab: 30-second script

Write a prompt that asks the AI to help you draft your 30-second campaign video script. Ask for a hook at the start, the length, scenes or shots, a voiceover, and a call to action at the end. Write your prompt here, then try it in Kitabash AI helper or ChatGPT or Gemini.

4. Trusted source, or check it elsewhere?

Write each item in the right group: Trusted source / Check it elsewhere first.

a. Your school science textbook → _____
b. An official city or government website → _____
c. A forwarded message on a family chat group → _____
d. A well-known science organisation's website → _____
e. A random video with no name or source → _____
f. An AI answer with a very exact number → _____

5. New situation: the unverified number

Zoya's AI says, "Ninety percent of plastic in our city is recycled." She finds no trusted source that says this. What should she do? Circle one.

a. A. Put it on the poster in big letters — it is a great fact
b. B. Leave it out, or replace it with a fact she has verified in two trusted sources
c. C. Change it to 80% to be safe
d. D. Ask the AI if it is sure, and use it if it says yes

6. My plan

Plan your project: Research a real local problem with AI, verify the facts in two trusted sources, and create a Canva poster and a 30-second video script that ask your community to act — then present it. Sketch it and list what each part will do.

7. Checklist

Tick each one when your project does it.

a. ☐ A real, local, actionable problem
b. ☐ Facts verified in 2 trusted sources, listed on the poster
c. ☐ Canva poster: one message, three actions, image, AI label
d. ☐ 30-second script: hook, problem, actions, call to action
e. ☐ Responsible-AI checklist completed
f. ☐ Presented to the class

8. Two stars and a wish

Ask a friend to test your project. Write two things they liked and one idea to improve it.

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ I can choose a real local problem and research it with AI.
☐ I can verify facts in two trusted sources.
☐ I can create a poster and a 30-second script with a call to action.
☐ I can use the responsible-AI checklist before sharing.
