Lesson 8: Coordinates and Random: Things That Fall

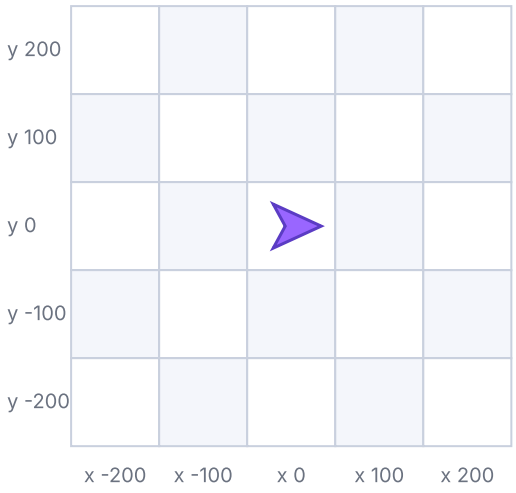

Module 3 | 45 minutes | Coordinates and randomness | Grades 3–5 · ages 8–10

Name: _____ Class: _____ Date: _____

The stage is a map.

1. Plot the points

Each square is 100 steps, the middle is (0, 0). Mark A (100, 100), B (−200, 0) and C (0, −200) on the grid.

2. Up, down, left, right?

Write the direction.

a. change y by (20) → ____
b. change x by (−20) → ____
c. change y by (−5) → ____

3. Random

Circle the numbers that “pick random 1 to 6” could give: 0 1 3 6 7

4. Explain

Why do we use pick random for the apple’s x position?

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ I can place a sprite using x and y.

☐ I can make a sprite fall and restart at the top.

☐ I can use pick random.
