PROJECT BRIEF · SCRATCH (GR 3–5) BEGINNER: SCRATCH GAME MAKERS

Lesson 9: Project: Catch the Apple

Module 3 | 50 minutes | Project: game play | Grades 3–5 · ages 8–10

Name: _____ Class: _____ Date: _____

Your mission
Build a catching game: arrow keys move a bowl, apples fall from random places, catching plays a sound and drops a new apple, and missed apples restart at the top. Playtest it and improve it.

Checklist

- [ ] Bowl moves with the arrow keys
- [ ] Apple falls from a random place
- [ ] Catch: sound + new apple
- [ ] Miss: new apple at the top
- [ ] Playtested and improved

Milestones

1. Bowl controls working — done on: _____
2. Apple falls and restarts — done on: _____
3. Catch rule working — done on: _____
4. Playtest with a friend — done on: _____
5. Improve, reflect, submit — done on: _____

Plan it

Sketch your stage and write what each sprite will do.

How it will be marked

Criterion	1 · Beginning	2 · Developing	3 · Secure	4 · Excellent
Events & controls	Bowl doesn't move	Moves one way only	Moves both ways smoothly enough to play	Smooth controls (forever + if key pressed) or extra controls
Loops & conditions	Apple doesn't fall	Falls but rules don't work	Falls forever with working catch and miss rules	Extra rules (golden apple, speed-up) that work
Coordinates & random	Fixed positions only	Random used but apple sometimes off-stage	Random x at the top every time	Uses coordinates cleverly (difficulty, multiple apples)
Game design	Hard to play	Playable but unbalanced	Fun and fair	Polished: sounds, backdrop, instructions, balanced difficulty
Testing & reflection	No playtest	Played it alone	Playtested; reflection explains a change	Several improvements from testing explained clearly

Want more?

- Smooth bowl movement with forever + if key pressed
- A golden apple that falls faster
- Apples that speed up over time

Two stars and a wish

Ask a friend to test your project.
