PROJECT BRIEF · SCRATCH (GR 3–5) BEGINNER: SCRATCH GAME MAKERS

Lesson 12: Capstone: My Arcade Game

Module 4 | 90 minutes | Capstone: everything together | Grades 3–5 · ages 8–10

Name: _____ Class: _____ Date: _____

Your mission
Design and build an original arcade game that uses events, loops, if-then rules, a variable and a win or lose ending. Playtest it with a friend, improve it, and present it.

Checklist

- [ ] Events start and control the game
- [ ] At least one loop
- [ ] At least one if-then rule
- [ ] A variable (score, lives or time)
- [ ] A clear win or lose ending
- [ ] Playtested and improved
- [ ] Instructions for the player

Milestones

1. Plan approved — done on: _____
2. Player controls working — done on: _____
3. Main challenge working — done on: _____
4. Score and ending working — done on: _____
5. Playtested and improved — done on: _____
6. Submitted and presented — done on: _____

Plan it

Sketch your stage and write what each sprite will do.

How it will be marked

Criterion	1 · Beginning	2 · Developing	3 · Secure	4 · Excellent
Events & controls	Hard to control	Basic controls work	Smooth, clear controls	Controls feel great; extra events used well
Loops & conditions	Few rules work	Some rules work	Loops and if rules make a working game	Clever combinations (e.g. if-else, nested loops, speed-up)
Variables & endings	No variable or ending	Variable changes but no ending	Variable and a working win/lose ending	Several variables or game states (title, play, end)
Design & creativity	Copy of an example	Some personal choices	Original and fun	Polished, original, balanced and surprising
Process (plan, test, improve)	No plan or testing	Plan or test, not both	Planned, tested and improved	Several improvements from testing, well documented
Reflection & presentation	Missing	Brief	Explains a bug fix and a change	Explains learning clearly and presents confidently

Want more?

- Add levels that get faster
- Add a title screen and instructions screen
- Add a high-score variable

Two stars and a wish

Ask a friend to test your project.
