COURSE GUIDE & SYLLABUS · KG–GRADE 2 · AGES 5–7

Scratch Junior (K–2) Intermediate: Story Makers

Talking characters, magic looks, hops, scenes and storyboards — tell stories with code.

The second ScratchJr course for ages 5–7. Children make characters hold conversations, change how they look (grow, shrink, hide, show), hop and dance with repeat loops, build stories with a beginning, middle and end, move between scenes, turn storyboards into code and become bug detectives. Projects: Talking Pets, Animal Parade, Fairy Tale Retell and a capstone Animated Story. Every lesson has a short video, a build-along for the ScratchJr app, picture-block puzzles that check themselves, a talk-and-move activity, a worksheet and a teacher plan.

What learners will be able to do

- Make characters say several lines in order and take turns
- Use grow, shrink, hide and show to tell a story
- Use hop and repeat loops with several blocks inside
- Build a story with a beginning, middle and end
- Make characters exit and enter scenes (pages)
- Turn a storyboard into code
- Find and fix more than one bug
- Plan, build and present an animated story

How every lesson works

Watch	A short animated explainer video with captions and read-aloud narration.
Learn	Learn cards with the real coding blocks, and a step-by-step build-along.
Try it (Code Lab)	Code in the built-in Scratch-style Code Lab with a live stage. Challenges are checked automatically and give a clear next step; hints unlock one at a time.
Puzzles & quick checks	Robot puzzles and questions that build understanding, with instant feedback.
Probe	Debugging and “new situation” tasks to show real understanding.
Projects	Each module ends with a creative project built in the Code Lab and reviewed by the teacher with a rubric.
Printables	A worksheet for every lesson, a project brief for every project, and a lesson plan with answer keys for the teacher.

Scope and sequence

#	Lesson	Big idea	Learners build
1	**Take Turns Talking** Make a character say several things in the right order, moving between lines, like a conversation.	Sequencing speech	A two-character chat in ScratchJr
2	**Grow, Shrink, Hide and Show** Change how a character looks with grow, shrink, hide and show blocks to tell a story.	Looks blocks	The very hungry caterpillar... of your own!
3	**Project: Talking Pets** Plan and build a short scene where two pets talk, move and change how they look.	Project: speech and looks	Project: Talking Pets
4	**Hop, Hop, Hooray!** Use the hop block and repeat to make characters bounce and celebrate.	Motion and loops	A happy hop
5	**Patterns Inside Patterns** Put several blocks inside a repeat to make longer patterns, like dances and walks around shapes.	Loops with several blocks	Dance chunk
6	**Project: Animal Parade** Plan and build a parade where animals move, hop and change size using repeat loops.	Project: loops and looks	Project: Animal Parade
7	**Beginning, Middle, End** Build a story with a clear beginning, middle and end using talking and moving blocks.	Story structure as sequence	A three-part story
8	**New Scenes: Exit and Enter** Make a character leave one scene and appear in the next, using moves, hide and show.	Scenes (pages)	A two-page story
9	**Project: Fairy Tale Retell** Retell a favourite fairy tale in ScratchJr with a beginning, middle and end, talking and at least two scenes.	Project: stories and scenes	Project: Fairy Tale Retell
10	**Two-Bug Detective** Find and fix more than one bug in a script by testing after each fix.	Debugging step by step	Squash two bugs
11	**Plan It with a Storyboard** Turn a picture storyboard into code, block by block.	Planning (algorithms from a plan)	Storyboard to code
12	**Capstone: My Animated Story** Plan with a storyboard, build, test and present an animated story with two scenes, talking, looks and a loop.	Capstone project	Project: My Animated Story

Modules

Module 1 · Talk and change
Conversations and looks blocks. Project: Talking Pets.

Big question: How can characters talk and change?

Module 2 · Movement magic
Hops, chunks and loops. Project: Animal Parade.

Big question: How do loops make characters dance?

Module 3 · Story time
Beginning, middle and end; scenes. Project: Fairy Tale Retell.

Big question: How do we tell a story with code?

Module 4 · Plan, fix and show
Debugging, storyboards and a capstone Animated Story.

Big question: How do story makers plan and fix their work?

Assessment

Coding challenges are checked on the server by running the learner's program. Quick checks give instant feedback. Written answers and projects are reviewed by the teacher against 4-level rubrics (Beginning · Developing · Secure · Excellent).

What you need

- Tablet or computer with a modern browser
- Optional: the free ScratchJr app (iPad, Android tablet or Chromebook) for the projects
- Paper and crayons for storyboards

Before you start

- Scratch Junior (K–2) Beginner: Little Coders, or experience with arrow blocks, the green flag and repeat

Safety and privacy

Children use only first names and never share photos of themselves or others outside the class. ScratchJr projects stay on the device. Young learners use the AI tutor only with an adult present and guardian consent.

What comes next

After this course: **Scratch Junior (K–2) Advanced**.

Kitabash original curriculum.
