Timed lesson plan (30 min)

Time	Stage	What happens
5 min	**Warm-up (unplugged)**	Puppet pairs (5 min): sock puppets take turns saying hello.
5 min	**Watch**	Play the lesson video with captions; pause at each heading and ask a question.
8 min	**Build along**	A two-character chat in ScratchJr: learners follow the steps.
5 min	**Perform**	Hello, then let's play, Who talks next?, Shopping trip, Taking turns
3 min	**Probe**	Animal chat
4 min	**Wrap-up**	Exit ticket: Show me where the wait block goes.

Unplugged warm-up

Puppet pairs (5 min): sock puppets take turns saying hello.

Teaching the idea

Sequenced speech output; interleaving motion and speech; turn taking via waits (ScratchJr) as an early timing/coordination idea.

Analogy: A puppet show: each puppet speaks in turn.

Live demo: Show two characters talking at once (messy), then add a wait (clear).

Questions to ask

Ask	Listen for
Who talks first?	Plan the order.
How do we stop them talking together?	A wait block.
Where does the walking go?	Between the lines.

Differentiation

Support
Pre-write the lines on cards for children to order.

Stretch
Make a 6-line conversation with three characters.

Common misconceptions

Misconception	How to fix it
All say blocks show at once	They show in order, one after another.

Assessment

Use the Code Lab results (auto-checked), the quick checks and the Probe answers. Written answers arrive in your review queue.

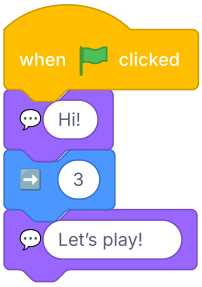

Exit ticket
Show me where the wait block goes.

Homework
Act out a short chat between two toys at home.
