LESSON PLAN · SCRATCH JUNIOR (K–2) INTERMEDIATE: STORY MAKERS

Lesson 2: Grow, Shrink, Hide and Show

Module 1 | 30 minutes | Looks blocks | KG–Grade 2 · ages 5–7

Objective: Change how a character looks with grow, shrink, hide and show blocks to tell a story.

Success criteria

- I can make a character grow and shrink.
- I can hide and show a character.
- I can use looks blocks in a story.

Key vocabulary

- **grow**: Get bigger.
- **shrink**: Get smaller.
- **hide / show**: Disappear / appear.
- **reset**: Put things back how they started.

You will need

- Projector with Kitabash (lesson video, Code Lab)
- Devices: 1 per learner or pair
- Printed worksheet (optional)

Timed lesson plan (30 min)

Time	Stage	What happens
5 min	**Warm-up (unplugged)**	Grow and shrink (5 min): children crouch (shrink) and stretch (grow) on command; “hide” = cover eyes.
5 min	**Watch**	Play the lesson video with captions; pause at each heading and ask a question.
8 min	**Build along**	The very hungry caterpillar... of your own!: learners follow the steps.
5 min	**Perform**	Hungry bug, Hide and seek, Magic trick, Match the block to what it does
3 min	**Probe**	Shrink to fit
4 min	**Wrap-up**	Exit ticket: Which block makes a character disappear?

Unplugged warm-up

Grow and shrink (5 min): children crouch (shrink) and stretch (grow) on command; “hide” = cover eyes.

Teaching the idea

Looks blocks change a sprite's appearance state (size, visibility). State persists until changed — children learn to reset (show, normal size) at the start.

Analogy: A magician's tricks: grow, shrink, vanish, appear!

Live demo: Grow a character three times, run again — it starts big! Show how to reset.

Questions to ask

Ask	Listen for
What happens if you grow twice?	Even bigger.
Is a hidden character gone?	No, it is invisible.
How do we start fresh?	Show and reset size at the start.

Differentiation

Support
Use a physical toy to act out grow/shrink/hide before coding.

Stretch
A story where a seed grows into a big tree (grow ×3).

Common misconceptions

Misconception	How to fix it
Hidden characters are deleted	They are still there.
Size resets by itself	Reset it with blocks or the reset button.

Assessment

Use the Code Lab results (auto-checked), the quick checks and the Probe answers. Written answers arrive in your review queue.

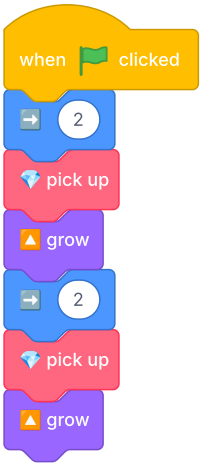

Exit ticket
Which block makes a character disappear?

Homework
Tell a story at home where something grows or disappears.

Answer key — Kitabash activities

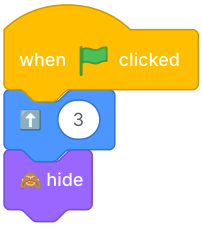

1. Hungry bug (perform · block code)

One solution:

2. Hide and seek (perform · block code)

One solution:

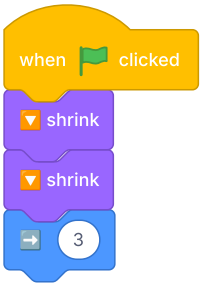

3. Magic trick (perform · multiple choice)

Answer: Hide at the start, show later

4. Shrink to fit (probe · block code)

One solution:

5. Match the block to what it does (perform · matching)

🔼 grow → Gets bigger · 🔽 shrink → Gets smaller · 🙈 hide → Disappears · 👀 show → Appears again

Answer key — worksheet

1. **Key words:** grow = Get bigger. · shrink = Get smaller. · hide / show = Disappear / appear. · reset = Put things back how they started.
2. **Magic trick:** A. Hide at the start, show later — Hide first, then show — surprise!
3. **Match the block to what it does:** 🔼 grow → Gets bigger · 🔽 shrink → Gets smaller · 🙈 hide → Disappears · 👀 show → Appears again
4. **Draw it:** Three bugs getting bigger.
