Unplugged warm-up

Teaching the idea

Narrative structure maps onto program sequence: setup, event, resolution. Children check sense by reading the script as a story.

Analogy: A sandwich: bread, filling, bread — in that order!

Live demo: Run a story in the wrong order; ask what's wrong.

Questions to ask

Ask	Listen for
What happens in the middle?	The event.
Which block is first?	The beginning.
How do we know it ended?	"The end!"

Differentiation

Support
Use a familiar story (Three Little Pigs).

Stretch
Add a second character in the middle.

Common misconceptions

Misconception	How to fix it
Order doesn't matter in stories	Swapping parts changes the story.

Assessment

Use the Code Lab results (auto-checked), the quick checks and the Probe answers. Written answers arrive in your review queue.

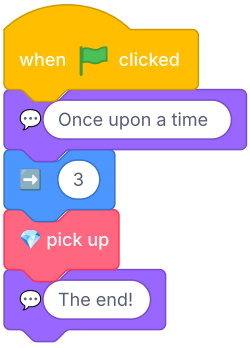

Exit ticket
What goes at the end of your story?

Homework
Tell a bedtime story in three parts.
