LESSON PLAN · SCRATCH JUNIOR (K–2) INTERMEDIATE: STORY MAKERS

Lesson 11: Plan It with a Storyboard

Module 4 | 30 minutes | Planning (algorithms from a plan) | KG–Grade 2 · ages 5–7

Objective: Turn a picture storyboard into code, block by block.

Success criteria

- I can read a storyboard.
- I can turn pictures into blocks.
- I can check my code matches.

Key vocabulary

- **storyboard**: Pictures that plan a story.
- **plan**: Decide before you build.
- **match**: Be the same as.

You will need

- Projector with Kitabash (lesson video, Code Lab)
- Devices: 1 per learner or pair
- Printed worksheet (optional)

Timed lesson plan (30 min)

Time	Stage	What happens
5 min	**Warm-up (unplugged)**	Freeze frames (5 min): groups make 3 frozen poses for a story.
5 min	**Watch**	Play the lesson video with captions; pause at each heading and ask a question.
8 min	**Build along**	Storyboard to code: learners follow the steps.
5 min	**Perform**	Bunny storyboard, Rocket storyboard, Order the pictures
3 min	**Probe**	Storyboard talk
4 min	**Wrap-up**	Exit ticket: Which block makes a character disappear in a storyboard?

Unplugged warm-up

Freeze frames (5 min): groups make 3 frozen poses for a story.

Teaching the idea

Planning: a storyboard is an informal algorithm. Mapping each frame to blocks practises decomposition and sequencing.

Analogy: A comic strip that becomes a cartoon.

Live demo: Map a storyboard to blocks on the board with arrows.

Questions to ask

Ask	Listen for
What happens in picture 2?	Move/talk/change.
Which block is that?	Name it.
Does the code match?	Compare.

Differentiation

Support
Give block cards to place under each picture.

Stretch
Make a 5-picture storyboard and code it.

Common misconceptions

Misconception	How to fix it
One picture = one whole script	One picture is one or two blocks.

Assessment

Use the Code Lab results (auto-checked), the quick checks and the Probe answers. Written answers arrive in your review queue.

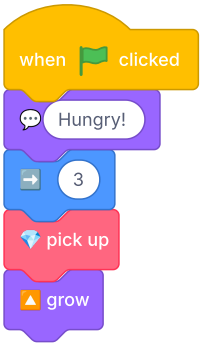

Exit ticket
Which block makes a character disappear in a storyboard?

Homework
Draw a storyboard for your capstone story.

Answer key — Kitabash activities

1. Bunny storyboard (perform · block code)

One solution:

2. Rocket storyboard (perform · block code)

One solution:

3. Order the pictures (perform · ordering)

Order: 🐣 An egg sits in a nest → 🔼 The egg grows → 🐥 A chick says “Peep!” → 🦘 The chick hops

4. Storyboard talk (probe · speaking)

Answer key — worksheet

1. **Key words:** storyboard = Pictures that plan a story. · plan = Decide before you build. · match = Be the same as.
2. **Order the pictures:** 1 🐣 An egg sits in a nest · 2 🔼 The egg grows · 3 🐥 A chick says “Peep!” · 4 🦘 The chick hops
3. **My storyboard:** Three pictures with matching blocks.

Kitabash original curriculum.
