LESSON PLAN · SPOKEN ENGLISH (GR 3–5) BEGINNER: CONFIDENT ENGLISH · LEVEL 1

Lesson 2: Ask and Answer

Module 1 | 45 minutes | Question words | Grades 3–6 · ages 8–11

Objective: Ask questions with what, where, when, who, why and how, give short answers, add a follow-up question, and interview a partner.

Success criteria

- I can use what, where, when, who, why and how.
- I can give a short answer and a full answer.
- I can ask a follow-up question.
- I can interview a partner politely.

Key vocabulary

- **question word**: A word that starts a question: what, where, when, who, why, how.
- **answer**: What you say back when someone asks a question.
- **follow-up question**: A new question about the answer you just heard.
- **interview**: Asking someone questions to find out about them.
- **reporter**: A person who asks questions and shares the news.

You will need

- Projector or screen share with Kitabash (lesson video, activities)
- Devices: 1 per learner (laptop, tablet or phone); a microphone helps for speaking tasks
- Printed worksheet, paper and pencil
- Project files: l02-practice-sheet-ask-and-answer.md, l02-teacher-script.md

Timed lesson plan (45 min)

Time	Stage	What happens
5 min	**Warm-up game**	Question-word ball: catch the imaginary ball, ask a question starting with the called word, throw it on.
5 min	**Watch + poll**	Play the video. Poll: “Which question word asks about a time?” (When.)
5 min	**Live interview demo**	Teacher interviews a volunteer. Class calls out “yes/no” or “tell-me-more” after each question.
5 min	**Build-along**	Learners write five reporter questions on the practice sheet using the frames.
8 min	**Game time**	Question-word match, then Find the question word, then the yes/no sort as a race — fastest correct finisher picks the next warm-up word.

8 min	**Breakout role play**	Pairs interview each other with their question cards (reporter and guest, then swap). Partner ticks the speak checklist.
5 min	**Show-and-tell: reporters report**	Three or four reporters tell the class one thing they found out about their partner: “Zoya likes… because…”
4 min	**Probe + exit ticket**	The zoo trip question (thumbs vote), then the pet shop questions. Exit ticket in the chat.

Unplugged warm-up

Question-word ball (5 min): the teacher “throws” an imaginary ball and calls a question word. The catcher must ask any question starting with that word (“Who is your favourite superhero?”) and throw it on. If you repeat someone’s question, you do a silly dance!

Teaching the idea

Learners meet the six “wh” question words and the yes/no question pattern. The key idea: the question word goes first, and it tells the listener what kind of answer you want (a thing, place, time, person, reason or way). Then teach the follow-up question, which turns a quiz into a real conversation. Keep all interview questions about likes and hobbies — never personal details.

Analogy: Question words are like keys: each one opens a different door — where opens the place door, when opens the time door, why opens the reason door.

Live demo: 1) Hold up six question-word cards on screen. Ask a quick question with each about yourself (“Where do I drink my chai? In the garden!”). 2) Interview a volunteer learner live: What is your favourite game? Why? When do you play? Pause after each answer and ask the class: “Was that a yes/no question or a tell-me-more question?” 3) Show the difference: “Do you like cricket?” (Yes.) vs “Why do you like cricket?” (A real answer.) 4) Model reporter manners: nod, say “Oh, nice!”, end with thank you.

Questions to ask

Ask	Listen for
Which question word asks about a place?	Where.
What kind of answer does “why” want?	A reason, often with “because”.
Make this a tell-me-more question: “Do you like dancing?”	Why do you like dancing? / What kind of dancing do you like?
What is a follow-up question?	A question about the answer you just heard.
How do we end an interview?	Thank you for talking to me!

Differentiation

Support
Give a question-word strip with pictures (box = what, map pin = where, clock = when, face = who, thought bubble = why, gear = how). Let learners pick two questions from a ready-made list.

Stretch
Ask two follow-up questions in a row, and report back to the class: “Arjun likes cricket because he loves batting. He plays every evening.”

Common misconceptions

Misconception	How to fix it
“Where you live?” (missing do)	Add do or does: “Where do you play?” Remember to ask about play, not where someone lives.
“Why you like it?”	Why do you like it?
Answering “Because” alone	Give the reason: “Because it is exciting.”
Asking a new question before listening to the answer	Listen to the whole answer, then ask a follow-up about it.

Assessment

Use the Code Lab results (auto-checked), the quick checks and the Probe answers. Written answers arrive in your review queue.

Exit ticket
Write a follow-up question for this answer: “My favourite animal is the elephant.”

Homework
Interview a family member with your five reporter questions. Write down two of their answers and tell the class next time.

Answer key — Kitabash activities

1. Match each question word to what it asks about (perform · matching)

What → A thing · Where → A place · When → A time · Who → A person · Why → A reason · How → The way something is done

2. Find the question word (perform · fill blank)

Answers: What · Where · Why · When

3. Yes/no question or tell-me-more question? (perform · categorize)

Yes/no question: Do you like mangoes?, Is your cat black?, Can you swim?, Are you in Class 4?
Tell-me-more question: What is your favourite fruit?, Why do you like drawing?, How do you make a paper boat?, Where do you play football?

4. Speak: interview a partner (perform · speaking)

Listen for: I asked at least three questions · I used three different question words · I asked one follow-up question · I listened and nodded · I said thank you at the end

5. New situation: the zoo trip (probe · multiple choice)

Answer: What was your favourite animal?

6. New situation: the pet shop (probe · free response)

Look for: what, where, when, how, why, who. **Example:** What animals do you have? Where do the puppies sleep? When do the fish eat? How do I look after a rabbit?

Answer key — worksheet

1. **Key words:** question word = A word that starts a question: what, where, when, who, why, how. · answer = What you say back when someone asks a question. · follow-up question = A new question about the answer you just heard. · interview = Asking someone questions to find out about them.
2. **Match each question word to what it asks about:** What → A thing · Where → A place · When → A time · Who → A person · Why → A reason · How → The way something is done
3. **Find the question word:** What · Where · Why · When
4. **Yes/no question or tell-me-more question?:** Yes/no question: Do you like mangoes?, Is your cat black?, Can you swim?, Are you in Class 4? · Tell-me-more question: What is your favourite fruit?, Why do you like drawing?, How do you make a paper boat?, Where do you play football?

5. **New situation: the zoo trip:** A. What was your favourite animal? — A good follow-up asks for more about what they just said, with a tell-me-more question word.
