Lesson 6: Forms and buttons

Module 2 | 60 minutes | forms, labels, inputs | Grades 6–11 · ages 11–16

Name: _____ Class: _____ Date: _____

Practise what you learned today. Read each task carefully.

1. Key words

Match each word to what it means. Write the letter.

a. form ___ A. A unique name for one element on the page.
b. input ___ B. Words that say what a box is for, joined with for and id.
c. label ___ C. A box the visitor types in or ticks; its type decides which kind.
d. id ___ D. A group of questions, boxes and buttons.

2. Plan your page

Before you code it: These two boxes have no labels, so nobody knows what to type, and there is no button. Add a label for each box (matching for and id) and a button. Sketch the page and list the tags you will use.

3. Predict the click

What happens when you click the words “I love mangoes”? Code: <input type="checkbox" id="mango"> ↵ <label for="mango">I love mangoes</label>

a. A. The tick box gets ticked
b. B. Nothing, you must click the box itself
c. C. The words turn blue like a link
d. D. The form is sent

4. Match each form tag to what it makes

Draw a line from each word to its match.

a. <input type="text"> ..... A. Words that say what a box is for
b. <input type="number"> ..... B. A drop-down menu
c. <input type="checkbox"> ..... C. A big box for a long answer
d. <textarea> ..... D. A tick box
e. <select> ..... E. A box for numbers only
f. <label> ..... F. A box for a short answer in words

5. Order it: one accessible question

Put the steps in order to add one accessible question to a form Number them 1–5.

a. ___ Click the label in the preview to test it
b. ___ Write the input with a matching id
c. ___ Write a label with for="..."
d. ___ Decide the question and the kind of answer
e. ___ Ask: do I really need this information?

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help
